RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

In response to the Office action of December 20, 2007, Applicants hereby elect Species V including claims 32-34, 43-46 and 106 for prosecution on the merits in the event that no generic claim is finally held to be allowable.

Applicants also request that claims 48-53 be included in Species V. As noted by the Examiner, Species V is drawn to an anode comprising two anode layers (i.e., the subject matter of claim 46), while Species VI is drawn to an anode comprising more than two anode layers (i.e., the subject matter of claim 47). Claims 48-53, which are currently included in Species VI but not in Species V, do not relate to the specific number of anode layers, are not dependent on either claim 46 or 47, and therefore are generic with respect to claims 46 and 47. Applicants respectfully submit that claims 48-53 are properly included in both Species V and Species VI.

Applicants request a telephone conference with the Examiner and request that the Examiner contact the undersigned, Jeffrey T. Klayman, to coordinate further prosecution.

Applicants petition for a one month extension of time. In the event that a further extension is needed, this conditional petition of extension is hereby submitted. Applicants request that deposit account number 19-4972 be charged for any fees that may be required for the timely consideration of this application.

February 20, 2008

Respectfully submitted,

/Jeffrey T. Klayman, #39,250/
